Mission goal
The spiders are getting clever: they found a way to hide.
Get rid of all the spiders that are hiding in the cellar without disturbing the bats.

Shell patterns
*
The "*" character stands in for any sequence of characters (including an empty sequence).
?
The "?" character stands in for any single character.

Remark
The wildcards "*" and "?" don't see hidden files, you need to add an explicit dot at the start of the pattern.
