 \_  | ========                                                           |.
   | |                                                                    |.
     | Checking for hidden files is taking too long!                      |.
     |                                                                    |.
     | Create an alias "la" to run the command ``ls -A`` in order to list all files, including hidden ones, with only 2 letters. |.
     |                                                                    |.
     | Define the synonym                                                 |.
     |                                                                    |.
     | la                                                                 |.
     |                                                                    |.
     | for the command                                                   |.
     |                                                                    |.
     | ls -A                                                              |.
     |                                                                    |.
     | and check that it works as expected.                              |.
     |                                                                    |.
     | How fortunate, there is a nice rock hidden just where you are.     |.
     |                                                                    |.
     |                                                                    |.
     | Useful commands                                                    |.
     | ========                                                           |.
     |                                                                    |.
     | alias STRING='COMMAND'                                             |.
     | Create a synonym for a string, that will stand for a command.      |.
